

Modern Bhageeratha

Sri Ayyappa Masagi a Person with devotion to water harvesting with his organization Water Literacy Foundation has contributed a lot for the easement of lives through water conversation, Rain water Harvesting and water reuse etc., at different parts of Karnataka.

As Deputy Commissioner and District Magistrate at Bagalkot I used his services for educating the Officers of different departments for appropriate usage of water and to make them to understand the proper balance between water usage and water replenishment.

As Deputy Commissioner and District Magistrate at Kolar I used his services for preparation of a plan for providing Water Supply through formation of Natural Check Dams in Natural Valley of KGF, so as to rejuvenate not only underground water but also to provide perennial water source without destruction to the Nature.

He is having an answer for water scarcity. Even in dry land he can offer Technologies for better water conversation and water management. I wish him all success in his endeavor.

Dr. D S. VISHWANATH
Deputy Commissioner &
District Magistrate
Ramanagara District
